Orthotics Poroduct

Extensive research, innovative designs and our passion for excellence has led to the creation of **Acuraa** range of products for you.

Acura is a specialized company which integrates R&D, Production and Marketing as a whole.

We are one of the fastest growing company in the field of manufacturing and exporting of Orthopaedic & Rehabilitation products.

Over the years, our product portfolio has evolved with vigorous support from specialists in medical circles and scientific research fields.

Our range has been highly recommended by the medical fraternity and well accepted by the end users.

'Technology in Healthcare' is our business philosophy.

We try to incorporate the latest technology and innovations in all aspects of our supply chain starting from procurement of quality raw materials, production, till final packaging and delivery of our **Acuraa** range of products.

We make every possible efforts to attain ultimate customer satisfaction adhering to the tenets of good quality and credibility.

Dear Associate,

We are taking this opportunity to introduce a dynamic & innovative healthcare venture "ACURAA" It is a start-up venture in India in orthopaedic & rehabilitation products, journey has begun couple of years back from South India. This start-up venture able to establish very agile & strong distribution network in most of the part of this sub-continent. Team Acuraa is embark with the vision to become a Global leader in its domain.

At current scenario Company aspire to focus on Indian market where *one out of six people has got orthopaedic problem* and market is looking for cost effective quality product to bridge the gap in-between demand & supply. Acuraa is one step ahead to their competition to *create better edge for their CHANNEL PARTNER/Distributor, Dealer & End user.*

Founding members of this organisation coming with comprehensive knowledge about future era of this industry and leveraging their collective experience in the industry for last several years. Simultaneously they are carrying strong education as their extra edge from eminent business school of the World.

Why "ACURAA": In Indian context, orthopaedic and rehabilitation industry valued around Rs.2,400 Cr. And this particular market is occupied by fragmented players mostly besides couple of old muscular players. Still there are huge gap in between growing demand and supply. Orthopaedic market is growing at 20% year after year. Hence Acuraa is formed to address significant gap in-between and support for wellbeing with best of the quality products, helping patients for faster healing and enable them to lead a pro-active life.

Vision of Acuraa: The "Acuraa" will be the benchmark as a global provider of high quality and affordable orthopaedic products for generation to come and desire to organize Indian orthopaedic industry with new innovation and cutting-edge technology.

We appreciate your future association & interest towards *Acuraa*. In advance thank you for your valuable contribution to make Acuraa most prominent player in orthopedic & rehabilitation space as well.

Look forward to serving and add value to our society with your association.

<http://www.acuraa.in/>

Thanking You,

Team Acuraa

COMMITMENT TO STAKEHOLDERS

The "Acuraa" centre will be the benchmark as a global provider of high quality and affordable orthopedic products for generation to come.

- R – Retain positive attitude.
- E – Excellence in customer service.
- S – Share your knowledge.
- U – Uphold the highest standard.
- L – Love what you do.
- T – Teamwork.
- S – Succeed with solutions that work.

MISSION

We are passionately dedicated to provide high quality healthcare products and high standard in service to every strata of the society and communities to serve.

Measure Circumference around the waist immediately below the navel

FRACTURE AIDS

A complete or partial breakage of bone is known as fracture. A significant percentage of bone fractures occur because of high force impact or stress. Broken bones heal by themselves. The aim of medical treatment and fracture aids is to make sure the pieces of bones are lined correctly during the entire healing process. The fracture aids also provides the necessary support and protection till the bone recovers its full strength.

The term rib injury usually means Rib fracture - that is a breakage in one or more of the ribs. Sometimes the ribs are not broken but there is bruising of ribs or nearby muscles. Rib injury can also be caused by the force of our own muscles : with severe cough , straining , heavy sports. The break or bruise usually heals by itself over a period of time. The Rib and chest supports helps to avoid further damage to rib cage by limiting chest expansion.

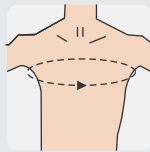

CHEST BINDER

KNEE SUPPORTS

The knee is the largest joint in the body, and one of the most easily injured. It is made up of four main things: bones, cartilage, ligaments, and tendons. The most common knee injuries include fractures around the knee, dislocation, and sprains and tears of soft tissues, like ligaments. In many cases, injuries involve more than one structure in the knee. If you have fractured a bone, a cast or brace may hold the bones in place while they heal.

ANKLE SUPPORTS

The pain and stiffness we feel in our feet and ankles as we grow older could be arthritis. If left untreated, this nagging pain can grow worse, eventually becoming so excruciating that we can no longer walk even short distances. Severe arthritis can restrict mobility and limit our quality of life

ANKLE SUPPORT 3D ULTIMA

CODE: AN 908

SIZE	MRP

Large	40-42	7.5-9.0

Measure circumference approx 2" above the inner ankle joint

FOOT CARE

Plantar Fasciitis is the most common cause of heel pain . It is a chronic inflammation to a large band of tissue on the bottom of our foot called the plantar fascia . It is characterized by sharp pain or throbbing pain which causes difficulty in walking especially in the early morning. Foot care products enhances shock absorption properties of fat cells of heel and reduces impact on heel and shock waves to leg , knees , hip and back.

VARICOSE VEIN STOCKINGS

Compression stockings help relieve symptoms and slow the progress of varicose veins. They improve circulation and are a mainstay of treatment for varicose veins. Compression stockings are tightest at the foot. They gradually loosen as they fit higher on the leg.

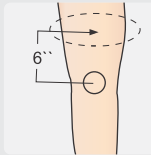

VARICOSE VEIN STOCKING MID THIGH

CODE: ST 1001

SIZE	MRP
S/M/L	Rs.798
XL/XXL	Rs.850

SIZE	INCHS	CM

XL	14.3-15.8	36-40
XXL	15.8-16.3	40-44

Measure circumference around mid thigh - approx. 6" above knee

MEDICAL COMPRESSION STOCKINGS

Medical compression stockings and compression socks are a good way to start a healthier venous life. An adequate treatment with medical compression hosiery in case of venous disorders depends on many important factors like the diagnosis or regular doctor visits. The therapeutic compression and the stiffness of our compression stockings result in high wearing comfort, compliance to treatment and best clinical outcomes. The medical concept behind graduation is such that the reducing pressure from the ankle to the thigh encourages the return of blood to the heart and lymph to the lymph-nodes.
