About us

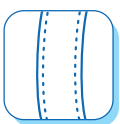

Metro Orthotics was established in 2016 with the goal of providing a diverse portfolio of Orthopaedic products ranging from the cervical collar, tennis elbow strap, roll bandages, and shoulder immobilizer to finger splint, back support, and knee braces. Based out of Pune, India, Metro Orthotics believes in delivering reliable and value services to healthcare systems by sourcing orthopaedic products from efficient and certified vendors.

Known for experienced R&D processes, and effective production capacity, Metro Orthotics prioritizes the latest processing methodology for the manufacturing of a large product line made in India. We utilize the potential of skilled professionals to ensure that the products meet industry norms and are safe, comfortable, portable, durable, traction-friendly, and can provide a good grip to the region requiring support.

Metro Orthotics is a well-known manufacturer and worldwide exporter of orthopaedic products, thanks to the comprehensive vendor network and organized warehousing facility. Our domain expertise has time and again resulted in above - average customer satisfaction, and we strive to enhance the quality of our product range in lieu of healthcare advancement.

Highly-elastic fabric capable of adapting to dynamic changes.

Anatomical seams for a comfortable fit.

Multi-cell textile design for greater comfort.

One, two or three fastening straps for easy adjustment and rotation prevention.
